Location: Lira, Uganda

Email: ojukajonathan@gmail.com | **Phone:** +256 779066825 / +256 704302149

Nationality: Ugandan | **Languages:** English, Luo

Professional Profile

Jonathan Ojuka is a plant breeder and seed-systems professional with training and experience across plant breeding, seed value chains, agronomic advisory, and program monitoring. He provides technical crop production guidance (soil health, pest and disease management), supports seed and input promotion through farmer/dealer engagement, and has experience in monitoring and evaluation through data collection and reporting. He is currently pursuing a Master's in Plant Breeding and Seed Systems at Universidade Eduardo Mondlane (2023–2025) and serves as a Teaching Assistant at Lira University, supporting teaching, practical demonstrations, and student learning in agriculture-related coursework.
